### **Democrats and Republicans differ on conspiracy theory beliefs**

**Raleigh, N.C.** – PPP’s latest national poll finds the American public differing along party lines on many conspiracy theories involving issues like global warming and the Iraq War, although some of the more bizarre ideas merit bipartisan skepticism.

The poll finds 28% of voters believe that a secretive power elite with a globalist agenda is conspiring to eventually rule the world through an authoritarian world government, or New World Order. 34% of Republicans and 35% of independents believe in the New World Order threat compared to just 15% of Democrats.

44% of voters believe the Bush administration intentionally misled the public about weapons of mass destruction to promote the Iraq War, while 45% disagree. 72% of Democrats believed the statement while 73% of Republicans did not. 22% of Democrats, 33% of Republicans and 28% of independents believe Saddam Hussein was involved in the 9/11 terrorist attacks. Just 6% of voters think Osama bin Laden is still alive.

There is an intense partisan divide on whether or not global warming is a hoax: 58% of Republicans agree that it is a conspiracy, while 77% of Democrats disagree. 20% of Republicans believe that President Obama is the Anti-Christ, compared to 13% of independents and 6% of Democrats who agree. 51% of Americans believe there was a larger conspiracy at work in the JFK assassination, while 25% think Lee Harvey Oswald acted alone. 29% believe aliens exist and 21% believe a UFO crashed at Roswell in 1947.

“Even crazy conspiracy theories are subject to partisan polarization, especially when there are political overtones involved,” said Dean Debnam, President of Public Policy Polling. “But most Americans reject the wackier ideas out there about fake moon landings and shape-shifting lizards.”

5% of respondents believe that Paul McCartney died and was secretly replaced in the Beatles in 1966, and just 4% believe shape-shifting reptilian people control our world by taking on human form and gaining power. 7% of voters think the moon landing was fake.

PPP surveyed 1,247 registered American voters from March 27<sup>th</sup> to 30<sup>th</sup>. The margin of error for the overall sample is +/-2.8%. This poll was not paid for or authorized by any campaign or political organization. PPP surveys are conducted through automated telephone interviews.
